

WATERLESS WASH & WAX

FOR REGULAR CLEANING OF VEHICLES

RapelLe Waterless Wash & Wax is a unique formulation that allows the cleaning and waxing of vehicles without the use of conventional detergents, buckets, water, sponges, wax and chamois.

One simple application will wash, polish and apply a microscopic film that will protect all surfaces that have been treated.

Ideal for all surfaces including automotive paintwork, glass, chrome, metals and plastics.

Coverage: 15 average vehicles per litre

DIRECTIONS FOR USE:

Shake well before use. Do not apply to hot surfaces or in direct sunlight on a hot day. Spray to workable sections of the vehicle at a time. Wipe over and clean the surface using a microfibre mitt. As you complete a section take a clean microfibre mitt or cloth and buff that section well to a high gloss. Continue all sections of the vehicle until complete. Repeat as necessary.

NOTE: For very dirty vehicles or high sand / mud deposits on the duco, rinse first with water and dry before use.

NON TOXIC ~ SAVE VALUABLE WATER
